MEMORANDUM FOR: Chairman, Technical Surveillance Countermeasures
Committee, United States Intelligence Board

Corny:

Your note about the performance of Printing
Services Division in support of your Committee has been passed on
to Jack Blake and the people in PSD. While we think the Agency has
a most unusual competence in those people and that facility, it's
mighty nice to have a customer say so!

Many thanks.

Printing Services Division makes such a regular practice of turning out fine work and being responsive to unusual requests that there is no surprise in the attached. There is, however, nothing like being appreciated. Please share this with all involved as another "Well Done!"

TECHNICAL SURVEILLANCE COUNTERMEASURES COMMITTEE

OFFICE OF THE CHAIRMAN

TSCC-D-332

14 June 1972

MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Support Furnished to the TSCC by the
Printing Services Division/OL

1. When this Committee was established in 1964 under the USIB, it quickly became evident that one of the best means of carrying out the fundamental responsibilities with which it was charged was through the use of a variety of publications. These range from a comprehensive Annual Report describing the countermeasures activities of the entire intelligence community, to Information Notices which are issued periodically throughout the year.

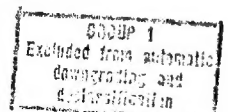

2. Other publications have included a six-volume set of reports covering the capabilities of foreign governments to conduct audio surveillance, Procedural Guides concerned with the conduct of countermeasures surveys by technicians, Technical Application Notes originating in the [REDACTED] and similar material. These publications are widely distributed throughout the intelligence community with many reaching overseas recipients as well. Almost all these reports contain photographs, drawings, and circuit diagrams.

3. The support which we have received from the Printing Services Division has been outstanding and is reflected in many laudatory comments which we continue to receive from members of the Committee. For example, a typical memorandum from the Deputy Assistant Secretary for Security, Department of State, said:
